FCLNY'S KEYNOTE SPEAKER

John Faso, Esq.

John J. Faso, served in Congress from 2017-2019 representing the 19th Congressional District in upstate New York. The district included all or part of eleven counties in the mid-Hudson Valley and Catskills regions. He was ranked by the non-partisan Lugar Center as the 13th most bi-partisan member of the House in 2018. He was a prime sponsor of legislation, signed into law in October 2018, which cracked down on the illegal shipment of fentanyl into the US.

Faso served 16 years in the New York State Assembly and was Republican leader from 1998-2002. Since leaving Congress, Faso has worked as a business consultant and maintaining a private law practice.

Most importantly, as it relates to the Proposed NYS Amendment, Faso was spokesperson for plaintiffs in another ballot measure in New York: in the landmark 2022 case which successfully challenged the congressional and legislative redistricting in New York State. The case was a major factor in the election of 11 Republican U.S .Congressional House members from New York State.

He is a graduate of the State University of New York at Brockport and Georgetown University Law Center. He and his wife, Mary Frances, are the parents of two adult children and reside in Kinderhook NY.

FCLNY'S SPECIAL GUEST SPEAKER

January Littlejohn

PARENTAL RIGHTS ADVOCATE

January Littlejohn is a wife and stay-at-home mom to three children in Tallahassee, FL. She has a master's degree in counseling and is also a licensed mental health counselor.

Her 13-year-old daughter was socially transitioned by middle school staff in 2020 without her knowledge or consent. In 2021, she and her husband filed a federal lawsuit against the school district for parental rights violations.

Most of her free time is devoted to educating parents, school officials, legislators, and mental health professionals on the dangers of gender ideology and the affirmation only approach in medicine. She also helps parents whose children have fallen prey to this ideology find resources and treatment options to support their family.
